

Cold expansion tools, valves, expansion rings and fittings

New! from Waterline and LynCar - Cold-X® cold expansion tools, valves, expansion rings and fittings. Cold-X® products are made to the highest quality standards using premium materials. We offer an industry-leading 25 year warranty on our fittings and expansion rings.

Cold-X® Tools and Heads:

- Our expansion hand tool is available in a kit with a variety of head sizes. As well, the tool and heads can be purchased separately. The heads can also be used on cold-expansion power tools.

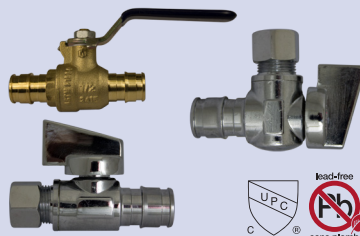

Cold-X® Expansion Rings:

- Our Cold-X® expansion rings include a notch to ensure proper positioning.
- They are also NSF certified.

Cold-X® Valves:

- Our line of Cold-X® chrome plated stop valves and ball valves is ever expanding.
- They are also cUPC certified.

Cold-X® Fittings:

- Our Cold-X® fittings are offered in durable engineered plastic or quality lead free brass. They are NSF certified and readily available to serve your needs.

Give your customers the full flow benefit of cold expansion, at the most competitive prices and terrific fill rates. Contact your LynCar or Waterline representative today.

Finally, a choice in cold expansion - Cold-X®
