

THE GRIDSTER®

Replaces a regular mechanical pop-up with hair strainer.

Think of houses with daughters where once a year you have to clean out the sink traps with nasty toxic chemicals. Wouldn't it be nice to have the ability to simply raise the plug and pull out all of that clogging rats nest of unwanted hair? Every hair salon from Victoria to St. John's would love to have the ability to clean the trap in seconds.

- Converts a standard pop up plug to a grid plug with a hair snare feature.
- Adjustment from 3" to 5"
- Easy to clean
- Stainless steel top
